

YERMA

Technical Requirements 2014

Yerma is a dance piece for 4 dancers and 3 Musicians with live and recorded music throughout. The Show is about 90 minutes long with an interval.

STAGING

- Black lino dance floor
- 'Black Box' Masking
- 1 x Music stand (with a light if possible)
- 1 x chair upstage for Cellist
- Rostra for musicians (12' x 4' x 1' is the ideal size)
- We will be bringing a gauze which needs to be rigged on a bar upstage (See LX Plan)

Please Note: The Dancers perform bare foot, so if dance lino is not available, please ensure the stage is clean and clear of splinters, screws and nails etc

LIGHTING

- An LX plan will be sent in advance
- A pre-rig would be appreciated if possible
- We will be using a laser during the performance.
(This will be pointed across the stage and not towards the audience)

HAZE

For the laser to be effective it requires a decent amount of haze. We have a machine but would also be Grateful for the use of an in house Hazer if one is available

SOUND

1. There are 3 musicians and they will be seated upstage behind the gauze.
 2. We have other sound cues on a laptop so need a connection in the control room
 3. Because the Musicians are seated, short boom stands would be preferred if possible.
 4. Please see stage plan for further details.
- 1 x Mic for Vocals (SM58)
 - 1 x Mic for Cello 1 (Condenser)
 - 2 x Mics for Tabla (SM57)
 - 2 x floor mics for footwork [We can provide if required]
 - Stereo Connection to mixer for our Laptop from the Lighting control position
 - 1 x Reverb Unit [for vocals]
 - 4 x Monitors, (2 US for Musicians and 2 DS for Dancers)
 - 2 x Monitor sends if possible

OTHER INFORMATION

- 2 x dressing rooms
- Iron and ironing board
- Tea/coffee making facilities and still drinking water
